ABOUT US

NAJCO has a diverse portfolio of services across multiple sectors encompassing Trading, Human Resource, Facility Management, MEP, Oilfield Supplies & Services, Heavy Equipment Rental, and Transportation. Our experience and work ethic enables strong business relationships with both clients and suppliers.

We spend time on preparation so that project execution is seamless and timelines are met – maximizing value by sourcing products and services efficiently, maintaining high quality while delivering projects on budget.

We have the honor of servicing clients across industries (public and private) including oil & gas, construction companies, government departments, and the military. Our sourcing ability is near limitless – fulfilling requirements across sectors.

OUR MISSION

To offer quality services that add value to people's lives and businesses, resulting in strong and lasting relationships.

OUR VISION

To be a leading business group that provides top-notch services to our clients while ensuring strategic focus across our divisions.

OUR VALUES

Our core values are translated into every aspect of our business.

- ◆ Integrity
- ◆ Quality
- ◆ Human Capital
- ◆ Innovation
- ◆ Sustainability

“

Managing Director's MESSAGE

As the Managing Director of Nasser Al Jaber group, I have seen the company grow from a humble background in 2010 to one of the leading management companies in Qatar.

We started our company with the sole intention of providing project management services to various industries in Qatar. Over the years, we have gained immense knowledge and experience in diverse industrial fields. Now, apart from project management solutions, we provide engineering and design strategy inputs as part of our value-added services to clients.

From providing management solutions to industrial and commercial projects, heavy rental equipment for large and small projects, HR solutions, real estate, MEP contracting and transportation logistics among other industries, we offer expert solutions for the execution of projects.

Today, our company stands proud with an enthusiastic and dynamic team of dedicated employees. We have remained resilient given the blockade and the pandemic. We attribute our success story to each one of our team members and our trusting clients.

Our company's USP lies in the fact that we provide quality assurances to clients, coupled with transparency in our processes. We are known for our integrity, perseverance, and efficient services.

Over the years the company has grown to be a leader in project management solutions. The company has successfully placed over 2500 candidates from our HR Solutions division, in more than 180 companies in Qatar. At NAJCO, we endeavour to provide our clients with only the best. We see our success through the growth of our clients. For us, quality is not an act, it is a habit.

Abhilash Tom,
Managing Director

Our Divisions

HEAVY EQUIPMENT RENTAL

Heavy Equipment across Qatar, with a young fleet at competitive pricing.

Get your construction, demolition and infrastructure needs met with our well-maintained heavy equipment rentals fleet. Excavators, trucks, cranes, boom trucks, forklifts, transporters. We've got them all.

- Safety and quality checks
- Equipment with operator
- On call maintenance support
- Long-term and short-term rentals Anywhere in Qatar
- Equipment fitted with spark arrestor and chalywn valve

Wheel / Chain Excavators

High quality, precision guided excavators.

Load sensing hydraulic systems. Maximize productivity. Increased lift capacity. Fuel efficient operations.

Boom Trucks

Heavy lift boom trucks, reliable and ready.

Strong, stable and regularly maintained boom. Tough build quality to thrive on the construction site. Safety features include Chalwyn Valves and Spark Arrestors.

Forklift / Man Lifts

Move personnel or material, safely.

Self propelled, belt-driven and push around man-lifts for moving manpower and material. We also provide top of the line forklifts, ready for the construction site or narrow spaces.

Dump Trucks

Get your material transported with ease.

Dump trucks for transporting debris, gravel, sand and more. Enable quicker construction. Sized according to your needs. Flexible rental periods.

Transport Vehicles

Personnel and materials mover, anywhere, any time.

Organise and get your staff where they need to go. We provide vans, buses including Coastar, 14-seater Toyota Hiace, 66-seat seater TATA buses and Eicher buses.

Mobile Cranes

Safe, mobile, heavy lifting anywhere.

High-quality cranes ranging from 25 tons to 100 tons, precise handling with stable lifting. We meet all your heavy lifting needs.

Our Fleet

Lifting Equipment

<i>Equipment</i>	<i>Capacity</i>
Mobile Cranes	25,50,70,80,100,120,160,200,220,300 Tons
Boom Truck	3,5,7,8,10,12 Tons
Telescopic Telehandler	13 & 17 Mtr
Forklift	3,5,7,10,16 Tons

Earth Moving Equipment

<i>Equipment</i>	<i>Capacity</i>
Excavators - Chain	20, 30,40 Tons
Excavators -Wheel	20 Ton
Long boom excavator	30Ton

Let us solve all your staffing needs.

Multinational recruiters equipped with top-notch talent acquisition skills with extensive knowledge in relevant industries

Our streamlined process has enabled a 100% success rate with connecting world-class candidates to world-class clients. Save yourself the trouble, cost and time with NAJCO HR Solutions.

Large Database

Industry Diversification

Bilingual Recruitment Experts

Strong Reputation

Job Design, Sourcing & Hiring

Leave your hiring hassles with us. Let us help you build a winning team or hire the right candidate.

Talent Decision Analysis

We can identify skills of your current team and uncover key recruiting metrics and hire better candidates driven towards success.

Offshore Recruitment

Let our highly experienced recruiters in the offshore industries help you higher the right team dedicated to your offshore projects.

Contract Staffing & Secondments

Looking for the flexibility of contract workers, perhaps for a specific project or because it makes financial sense. We can help source, hire and manage candidates based on your temporary and immediate need.

We offer flexible solution to your recruitment or career needs and are able to provide you a unique tailored service, whether sourcing for difficult vacancies, keeping up with market salaries, requiring a visa, seeking Master Vendor services or simply some strong career advice.

OILFIELD SUPPLIES & SERVICES

Recognised across Qatar as a top supplier of oilfield products and services.

With an experienced team of engineers and technicians, NAJCO is building a reputation across QATAR and GCC countries for completing projects on time. Our platform allows certified manufacturers and suppliers in-roads into the Qatar oilfield industry - overseen by our expertise and experience.

- Highest standards maintained in oil and gas industry
- Pipeline construction and commissioning
- Tank repair and marine vessel construction
- Seamless collaboration with HEPC contractors Oil & Gas, Power & Water, Ship Building and Infrastructure Industries

Piping Fabrication

- Shop Prefabrication
- Field Welding & Installation
- Commissioning Assistance
- MOC, CS, SS, DSS, Alloy
- Oil & Gas
- Power
- Desalination
- Water treatment
- Process Piping

Pipeline Construction and Pre Commissioning

- Dedicated team of engineers, technicians, welders, for construction, revamping, fabrication and cleanup tasks.
- Pipeline construction
 - Hydro Testing
 - Pigging
 - Gauging cleaning

Staffing Services – Engineers & Technicians

Highly skilled team of engineers, supervisors, inspectors and technical staff – for quick turnarounds during shutdowns.

Composite Pipe Repair

Composite Repair in High pressure pipes, Composite encapsulation of Clamp, Underwater Structural Component Repair, Riser Repair, Splash Zone Repair

Composite Tank Repair

Repair and protect floating Roof Pontoons, protect pontoons from flooding & sinking, Steel Panel Repairs using specially formulated foams and epoxy polymers

Construction and Maintenance of Marine Vessels

Structural repairs and pipeline fabrication – performed by specialised engineers. Internal carpentry, external hull blasting and repairs to get your marine vessels seaworthy.

Advanced Protective Coatings

Protecting your equipment from marine and other harsh environments – polymer and epoxy coatings for wet and underwater surfaces, abrasion resistant concrete surfacing.

Valve Maintenance Services

On-Site Valve Specialist Services, New Valve Commissioning, Emergency Valve Sealing, Valve Integrity, Valve & Actuator Repairs, Body Draining and Flushing, Pressure Testing

Pipe Freezing

Pipe Freezing is a Non-invasive pipe work isolation service that allows inline pipe maintenance to be completed without the need to drain pipework systems, refill and re-vent or store liquids.

Pipe freezing, using liquid nitrogen for temporary line flow stopping, offers the most cost effective way to achieve pipe isolation for valve replacement and general non-intrusive pipework modifications.

Pipeline Leak Repair Clamps

Design & fabrication of clamps for permanent repair of corroded, damaged and cracked pipes. These clamps can be manufactured to a wide range of dimensions and pressure ratings for leak sealing, repair & reinforcement Onshore & Offshore.

- MOC CS with Buna 'N' / Viton Seals
- Size: 1" to 48"
- Pressure rating #150 to 1500
- API-6H
- Bend Clamp
- Enclosure Clamp
- Flange Leak Clamp
- Connector Clamp
- Tee Clamp

Pin Hole Repair Clamps

Pin-Hole Leak Repair Clamp is used when the leakage in Pipeline is very small & minute. We provide custom size and configurations size ranging from 1" to 48", ratings #150 to #1500.

Pig Barrels & Quick Opening Closures

SCRAPER BARRELS WITH CLOSURE (Launcher-Receiver)

- MOC: Carbon steel / Stainless Steel
- Sizes: 2" NB to 36" NB
- API-6H, ASME SEC VIII DIV -I, ANSI B31.4/31.8
- Application: Launching & Receiving Pigs

Exotic Material Pipes Fitting & Flanges

- PIPES & TUBERS – Duplex, Super Duplex, 6% Moly, Nickel Alloys from stock. Sizes 0.5" – 60", Schedule 10s – XXS
- FLANGES & FITTINGS – Duplex, Super Duplex and 6% Moly Sizes 0.5" – 60" (15mm – 1500mm) Schedule 10s – XXS

Pipeline Pigging Products

Supply of pipeline pigs to operators and contractors in Oil & Gas and process industry. The Pigs are designed and manufactured to suit specific applications and design of each pipeline.

- Bi Directional Pigs
- Commissioning Pigs
- Foam Pigs
- Flexi Pigs
- Speciality Pigs

Valve Maintenance Products

- Lubricants and Sealants
- Valve Cleaners
- Injection Equipment
- Valve Fittings and Adapters
- Lubricant & Sealant Injection Guns and Pumps

Fluid Control & Measurement

- Ball, Gate, Globe & Check Valves
- Plug and Ball Valves
- Needle valves
- Valve manifolds
- QRC, NRV
- Emergency Shut-Off Valves
- Valve Actuators

Pressure Vessels

- Pressure Vessels
- Storage Vessels
- Filter Vessels
- Coalescer Vessels
- Knock Out Drums
- Scrubbers
- Reactors
- Deareator

API Tanks & Tank Farms

- Bulk Storage Tank Farms
- Water Storage Tanks
- Tankers for Road Transport
- Chemical Storage Tanks
- Tanks with Agitators

Structural Steel Fabrication

Fabrication & Erection of Pipe Racks, Industrial Ladders, Precast Molds, Warehouse, Skips, Light Poles

Skid Package

- Glycol Regeneration Skid
- Test Separators – 2 / 3 phase
- De-Salter skids
- Oily Water Treatment Skid
- Filtration Skids – Amine Filtration
- Metering / manifold – skids
- Pump / Blower skids
- Fuel Gas Skids

MEP CONTRACTING

Mechanical, Electrical, and plumbing construction under one roof.

Experienced Professional engineers to handle the project from Estimation, design, Installation, to commissioning within set timeframes. We provide a high level of service to all our clients, and this is underpinned by the number of buildings where we have ongoing relationships for service, installation, upgrade, and design of mechanical, electrical and fire related systems

- Commercial and industrial projects
- Fit out projects
- Infrastructure projects
- Street lighting
- High Rise Buildings and Hotels
- External and Façade lighting projects

Our Specialization

Air Filtration & HVAC

Water Treatment

Lighting Control System

Ducting, Balancing and Commissioning

Water supply and drainage

Internal, External and Façade Lighting

Mechanical HVAC:

- AHU, FAHU, FCU & Kitchen Extract system
- Air Filtration & Odor Elimination systems
- Chilled Water Systems- Piping, Insulation, water Balancing etc.
- DX-VRV systems
- Package Units and split Units
- Car park ventilation system including CO monitoring
- Ducting, Balancing and Commissioning
- Chemical Dosing system

Plumbing and Drainage system:

- Cold and Hot water systems
- Boilers and related equipment installation
- Water treatment
- Water Tanks, Pumps, and related control panels
- Water supply, drainage Risers and PRV
- Submersible pumps and manholes

Electrical and ELV systems:

- LV/MV Switch gears and controls
- Internal, External and Façade Lighting
- Motor control centers
- Transformers and Generators
- Busbar duct system
- Fire alarm system
- Structured cabling system
- Lighting control system
- AV system and public address systems
- Telephone/ IPTV/Wi-Fi system

FACILITY MANAGEMENT

Operation, safety and maintenance – across commercial, retail and real estate.

Ensure that your legal, health and safety requirements are met across your properties with NAJCO – the expert facility managers. Structure health checks, infrastructure and equipment management as well as operational safety managed thoroughly and expertly.

- Improve business efficiency
- Allow staff and employees to focus on work – we take care of infrastructure management
- Cut down expenditure and improve useability of your commercial or retail property

Why Najco Facility Management

Expert team, optimal results

Najco's highly skilled team of engineers and technicians provide the highest standards of maintenance services that ensure optimum performance of clients' assets and improvement of the lifespan of assets.

Increases efficiency

Our approach and execution improve transparency and efficiency, drive service standards, and deliver critical management information to the team and clients at the touch of a button.

Energy maintenance & management for a green future

Our solutions reduce energy wastage and deliver optimal use on managed sites with an aim toward sustainability and contribution to the green environment.

Hard Services

Maintenance and Operations – Keep your properties and facilities in excellent shape with managed maintenance and daily operations

Lease Management – Stay on top of all your lease agreements including renewals, closures and more

Occupancy and Space Management – We handle all the occupancy and space requirements, whether you need to revamp the interiors or find new occupants

Energy Management – With our expertise in energy management, we take care of utility from resource management, bill payments and energy consumption reductions

Real Estate Management – Buy, sell, find, lease commercial residential or other properties through our streamlined service

Landscaping Services – Designing, landscaping and maintaining your outdoor spaces with our in-house experts

Soft Services

Home Improvement Service

Cost effective, quality home renovations done quickly

Cooler Maintenance and Cleaning Services

Ensure your air cooling systems are running optimally and hygienically with our regular maintenance and cleaning service

Disinfection Services

Regular or hazardous disinfection when you need it

Pest Control Services

Emergency and scheduled pest control for all real estate

Water Tank Cleaning

Scheduled, safe and effective tank cleaning

Security Services

Door access, CCTV, security guards

Plumbing and Electrical Services

Installing sanitaryware and fixtures, fixing leaks, regular maintenance

TRANSPORTATION

Get moving. On time and efficiently.

NAJCO provides transportation services across Qatar to manage your manpower requirements and inventory. Move and ship materials anywhere you need it - on time and without hassle.

- All-in-one transportation solutions
- Personnel and material transport
- Safe, maintained and reliable transport vehicles

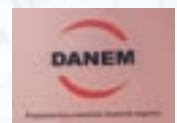

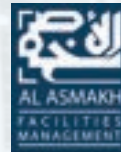

REAL ESTATE

Matching client requirements to the property that suits them best.

Find, acquire and build on the property that meets your specific requirements. We work across Qatar to locate the best possible real estate options for our clients and perform site evaluations to ensure target specifications are met.

- Buy, sell or develop real estate with our expertise
- Locate potential properties for comparison
- Site and surroundings evaluation
- Find retail buyers for your real estate
